

Vinpower Digital's Ripbox

The Best Gifts come in small packages

Model	RipBox25-S1T	RipBox25-S1T-SW
Software Included	ImgBurn	BPR2000 Lite Labeling and Burning Software
Model Type	Automatic ripping station	
Max Disc Capacity	25	
Number of Recorder Drive	1	
PC Interface	USB 2.0/1.1	
PC System Requirement	1GHz Processor Processor or better 512MB RAM or higher for better performance Windows XP, Vista, 7 (32 or 64Bit) 2 USB 2.0 Port Administrator privilege required	
Featuring Recorder	24x DVD/CD Writer	
Maximum Copy Speed	DVD-R: 24x, DVD-RW: 6x, DVD+R: 24x, DVD+RW: 8x, DVD-R DL: 12x, DVD+R DL: 8x, CD-R: 48x, CD-RW: 32x	
Formats Supported	DVD-ROM, DVD-Video, DVD-Audio, DVD+R Double Layer, DVD-R Dual Layer, DVD-R, DVD-RW, DVD+R, DVD+RW CD-ROM (Mode1 & Mode2), CD-ROM/XA (Mode2 form1 & form2) CD-DA, Mixed-Mode Video CD, CD-I, Karaoke CD(VCD)Photo CD (Single & Multi-session) CD-Extra, HFS, CD-Bridge ISO9660, CD-R, CD-RW	
Firmware Upgradeable	Yes	
Power Supply	Input: 90 ~ 240 V	
Operating Humidity	20% ~ 80%	
Temperature Extremes	40oC (104oF) / 5oC (41oF)	
Regulations	FCC, CE, RoHS, UL, CB	
Manufacturer	Vinpower Digital	

Basic Operations

- Flexible operation modes: Flexible operation modes for both automated ripping and burning content.

Ripping Support

- Provides Data Ripping*: All files and folder structure is cloned to your hard drive
- Supports Audio Ripping*: Able to rip music files onto a PC hard drive
- Supports Archival Back-up: Capable of operating as an archival rip station for important back-up of content onto optical discs or from discs onto a server or HDD
- Supports Job Queues*: Provides the ability to queue multiple jobs for unattended operation of multiple different duplication assignments
- Supports Multiple Job Queues*: System is able to maintain multiple job queues for several users so that each individual user can maintain their own dupe files for use at a later date
- Multi-master read-in support: Users can read-in a stack of masters and create ISO images

System Advantages

- Automated Robotic Operation: System runs duplication through a robotic interface allowing for hands free lights-out operation.
- Copy Protection Capable: Optional feature available to provide DVD & Blu-ray* video copy protection to greatly diminish the ability for unauthorized duplication and ripping proprietary content

Software Features

- Provided Publishing Software: The unit comes standard with the ImgBurn software (which can also be obtained freely from <http://www.imgburn.com>), or is available with the more powerful optional BPR2000 Lite software which supports the broadest set of features and capabilities.
- Third Party Software Support (Optional): RipBox hardware can be controlled through many third party software's for added convenience and ease of use.
- Software update Available: Able to update proprietary software and firmware for future functionality
- Extensive Log File: Maintains an extensive log file of the systems operations for easier troubleshooting if needed (All jobs are auto logged)
- System error notification: System will email listed users notifications when jobs have been completed or to report any potential error conditions that may arise

Robotics Operation

- Hi-speed 24/7 operation: Able to perform constantly 24 hours a day, 7 days a week without fear of overheating with quick reliable robotic operation.
- Friendly Interface: All job functions and system alerts operate in an easy to use and similar user interface for convenience and ease of use

*Specifications available for each model depend on the software feature chosen to operate the equipment. Not all features are available using the ImgBurn freeware.
