■■■ Key Features

- **Complete Standalone Operation:** No PC required to operate the duplicator
- **Multi-Master Recognition Technology (MMRT):** Can load multiple masters at once to run multiple duplication jobs in succession
- **Supports automatic writer disable feature:** When a specified "Maximum Failures/Per Recorder" is reached, that drive will be shut down while the rest work normally
- **Supports automatic job abort feature:** When a specified "Maximum Total Failures" is reached the unit will stop and issue an error
- **Proper Disc Placement:** Automatically ejects and closes the writer tray to slide the disc into place when the media wasn't properly placed
- **Manual Duplication Mode:** The drive tower can be used as a manual tower disabling the robotic features for short runs
- **High Capacity Duplication:** The systems come with large disc capacity ranging from 25 up to 60 discs for high volume duplication needs
- **Account management (password protection):** This function will authorize only specific user(s) to operate the duplicator with their own selected preferred settings
- **Continuous Hard Drive Partitioning:** The HDD partitions are created without limitations using the same amount of space as the actual content size on the disc

■■■ Additional Features

- **Hard Drive Partition/Image Name Editing:** The user can name the image content stored on the duplicator's hard drive partitions
- **Laser Labeling*:** Using LightScribe capable discs, the duplicator can print custom images or text directly onto the label side of every disc in the duplicator at the same time
- **Drive firmware upgradeability:** Capable of upgrading the drive's internal firmware directly through the Duplicator
- **Drive History:** The duplicator will keep a log of all successfully copied discs as well as all failed discs for the entire unit and each individual drive
- **Blu-ray Disc Duplication**:** Supports all currently available Blu-ray media including Double/Dual layer
- **Expanded CD Capabilities:** Supports all common CD formats including CD-TEXT, ISRC, Over-Burned CD
- **Continuous copying without waiting for cool down:** No need to stop the duplicator for fear of overheating
